

HERITAGE HILLS RESORT

The Heritage Hills team has maintained a constant watch on the developing coronavirus pandemic. From the early days we have been committed to the safety and security of our guests and staff.

Following the guidance from Federal and Local governing bodies we have made the very difficult decision to close our Athletic Club and Serenity Spa effective Wednesday March 18th. These closures are projected to remain in effect for an initial 2-week period, and will be subject to further review as updated conditions become available to us.

No one can predict the timing of a return to normalcy but, rest assured, we are eager to resume our service to guests and members when it has been deemed safe to do so. Members of our staff and Sales team are available to help you ensure that your particular needs are being met during this transitional period.

Thank you for your continued trust in Heritage Hills.
